## Professional Summary

Computer Science undergraduate at FAST-NUCES with hands-on experience in software development, AI-assisted engineering, backend systems, and terminal-based applications. Proficient in Java, Python, and C, with a strong understanding of object-oriented programming, data structures, databases, and software design. Experienced in developing academic and practical projects, including developer productivity tools, workflow platforms, learning management systems, and HR management applications. Demonstrated leadership, communication, and mentoring abilities through university societies, event management, and tutoring.

## Education

FAST University – BS Software Engineering (studied the freshmen year and then transferred to computer science)

FAST University – BS Computer Science (Currently Enrolled)

A-Levels – Whales College, Karachi (2A, 2B)

O-Levels – Orchard Grammar School, Karachi (5A\*, 3A)

## Technical Skills

**Programming Languages:** Java, Python, C

**Software Development:** Object-Oriented Programming, Data Structures and Algorithms, Software Design and Analysis, Backend Development

**AI and Data:** Artificial Intelligence, Machine Learning Fundamentals, Data Processing, AI-Assisted Software Engineering

**Databases:** Database Management Systems, SQL Fundamentals

**Tools and Technologies:** Git, GitHub, Command Line Interface, Visual Studio Code, MS Office

## Projects

- Transport Management System (Assembly Language)
- Java OOP-Based rocket shooter game
- Used car price predictor (AI and SDA)
- DevPulse — Developer Productivity and Workflow Platform
- Workflow and Task Management Platform
- EN Academy — E-Learning and Student Management Platform
- HR Management System — C Terminal Application

## Leadership Experience

- Media Head – [The literacy Society (TGD)]
- Managed social media content, branding, and event promotions.
- Reel Creation and Videography
- Videography Head – [Dev Day 2026 ]
- Led content planning and coordinated media coverage for events.

## Work Experience

- Home Tutor (2022 – Present)
- Taught Mathematics, Science, and Computer-related subjects.
- Prepared lesson plans, assessments, and progress reports.
- Developed communication, mentoring, and presentation skills.
- Taught at NGO in 2025 summers

## Relevant Coursework

- Object-Oriented Programming
- Data Structures
- Digital Logic Design
- Database Systems
- Database Management
- Software Design and Analysis
- Artificial Intelligence
- Programming Fundamentals
